ResQMe is Patented and Trademarked.

Beware of imitators!!!

nov8, has been successfully promoting the patented and trademarked product called ResQMe™ in many European countries for the past four years; and as inevitably, nov8 has become aware of the existence in Europe of a counterfeit keychain rescue tool made in China that looks like exactly the original ResQMe™.

Be aware that this item has the exact same design available within the same colors and even the red one. This is purely a breach of law to sell this item infringing simply ResQMe™ patent and even its trademark in countries that our product has been filed.

nov8 is informing potential clients, distributors, and wholesalers about this violation and nov8 is taking legal action against the Chinese manufacturers, the European importers, distributors and end-users that are allegedly selling ResQMe™ counterfeit in their countries.

nov8 is highly encouraging any European companies to avoid selling this counterfeit, approach us to annihilate this copy and promote the real patented and trademarked ResQMe™ instead.

Thank you for your precious cooperation.

A Gift For Life!
