

ResQMe™ [2 IN 1 Keychain Rescue Tool] has quickly proven to be must-have rescue tool for police officers, SWAT teams, Paramedics and firefighters around the world. This essential safety product is specifically designed to assist officers while on and off duty and to make their job safer. ResQMe™ is the best alternative to batons, knives and any other heavy tools available on the market.

Inspired by the traditional car emergency hammer, the Made in the USA ResQMe™ with its spring loaded steel point helps break any tempered glass window, with a protected stainless steel blade cut through seatbelts and any fabrics to allow rescue or escape from vehicular entrapment. ResQMe™ is crafted with the highest quality materials, insuring total reliability for both the rescuer and the rescued. Strategically attached to the belt or right on the key saver, ResQMe™ will always be there. Its compact size makes it convenient for easy access, ensuring that safety is always near when a situation that requires action arises.

When seconds count, reach for ResQMe™!
